FOR IMMEDIATE RELEASE

VersaLogic Corporation Receives AS9100 Certification

Tualatin, OR — February 19, 2020 — VersaLogic Corporation, the embedded industry's most trusted computer company, proudly announces their AS9100D certification.

With this certification, VersaLogic surpasses their existing ISO 9001 certification, and now joins an elite group of companies also registered to this aerospace standard.

"VersaLogic is proud to announce certification of our Quality Management System to AS9100D." says Bruce McKinnon, Chief Operating Officer. "This achievement reflects our long-standing commitment to maintaining a world-class quality management system and producing best-in-class embedded computer products. Managing product and service quality per AS9100D assures that we will continue to meet or exceed our aerospace customers' requirements."

Enhancing Quality and Customer Satisfaction

The audit was conducted in accordance with the requirements of SAE AS9104/1:2012-01 by PRI RegistrarSM which is accredited by ANAB and IAF. The standard certification aims to enhance customer satisfaction, something that VersaLogic has long held at the forefront of their business. It contains requirements related to quality, safety, risk management, and evidence-based decision making – all important factors that the aerospace and defense industries demand and uphold themselves.

About VersaLogic Corporation

VersaLogic delivers state-of-the-art embedded computers, coupled with expert technical support, for critical markets such as medical and defense. Featuring long-term availability, -40° to +85°C operation, MIL-STD-202 shock and vibration testing, and outstanding US-based support, VersaLogic products are ideal for critical applications that value ruggedness, reliability and long life. A 40+ year history of consistency has earned VersaLogic the reputation of being "the industry's most trusted embedded computer company." For more information, visit VersaLogic.com.
